Application to Present a Webinar

Thank you for your interest in contributing to the ASHT webinar series. We are looking for original presentations with evidence-based referencing that will provide additional educational opportunities for our members.

Please be advised that all ASHT webinars are recorded for future sale in the ASHT store. Should the ASHT Division approve your webinar, a signed speaker agreement will be required.

Please complete the entire form and email it with your CV, bio, presentation references, and a sample of the presentation in either PDF or PowerPoint to education@asht.org. (It is understood that the sample presentation may not be the final form of the webinar presentation. Final presentations must include a reference list with a minimum of three references from a peer reviewed journal published within 10 years of course content as either part of the presentation or as a separate document. Additionally, final presentations should include citations on applicable individual slides to support content information. No logos or work place references should be included on the slides, with the exception of a title slide and final slide with bio or contact information.)

If your presentation is too large to email, please let us know, and a Dropbox® will be created for receiving the presentation. Be sure to put WEBINAR APPLICATION in the subject line. The ASHT Education Division must approve all final presentation content.

*We regret we cannot consider incomplete applications.*

**Proposed webinar title:**

_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

**Webinar description:**

_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

**Learning objectives (please provide four to five):**

_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
Have you presented or published this material previously? If yes, please specify the venue and dates:
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

If this material has been presented before, please provide an electronic copy of the presentation for review along with your application. Please provide any links to online versions, websites or video clips:
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

Please provide any other information we should consider when reviewing your submission:
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

Please provide a brief bio for all presenters, including qualitative research and speaking experience. (If you are chosen to present, your bio will be included with online promotions of the webinar as well as a headshot, which will be requested upon webinar approval.):
